

MENA Chartbook, JULY 2012

The MENA Chartbook provides data (a wide range including GDP growth, fiscal indicators, money and banking indicators, the oil and gas sector, financial market, social development and business rankings) and updated information on economic and financial conditions in the MENA countries. The Chartbook also features an economic snapshot of the MENA countries, in addition to a regional macro-economic overview. Data for the Chartbook are extracted from free sources like the IMF and World Bank, in addition to data service providers like Thomson Reuters and Bloomberg. The concept is to keep you updated on developments in the MENA countries through a readily available information and analysis tool. The data is updated on a quarterly basis and will be available on the website.
