

Middle East Economies Adjusting to the New Oil Normal, Presentation at SuperReturn Middle East, 19 Oct 2016

The presentation titled "[Middle East Economies Adjusting to the New Oil Normal](#)", was delivered at the SuperReturn Middle East held in Dubai on 17-19 October 2016.

It provides a macroeconomic overview of global and regional developments while also analysing the fiscal consequences of the New oil Normal for the GCC and subsequent implications for SWFs. Taxation and privatisation are key focus areas of the presentation, which ends with a look into the private equity space and investment opportunities arising from the current and medium-term economic climate.
