Interview with CNN Business Arabic on the ceasefire announcement & impacts, 9 Apr 2026

In this TV interview with CNN Business Arabia, aired 9th April 2026, Dr. Nasser Saidi discusses the ceasefire announcement pausing the war in Iran & wider conflict in the Middle East. He says that the recent market rallies are unsustainable, reflecting a temporary reaction to the truce amidst the continued closure of the Strait of Hormuz and ongoing pressure in the oil and gas markets. Sharp fluctuations in oil, stock, and bond prices are likely, with current investor gains remaining temporary given the uncertainty. Inflation is expected to persist, driven by rising energy and insurance costs. Shipping, aviation, and tourism indicators will be closely monitored as crucial factors influencing market direction.

Interview with Al Arabiya Business on the Fed's rate decision in the backdrop of

the Iran war, 18 Mar 2026

In this TV interview with Al Arabiya aired on 18th March 2026, Dr. Nasser Saidi discussed the Fed's expected and unavoidable decision to hold rates steady in the face of higher expected inflation in the US and globally as a result of higher energy prices, higher agricultural and food prices, plastics, transport & logistics, along with supply chain disruptions. While the impact depends on the length, breadth, scope and intensity of the war, the effects will be longer lasting given destruction of critical infrastructure including energy, water and desalination, ports and airports and potentially digital connectivity.

Dr. Saidi states that we are moving into uncharted territory. Expect greater policy coordination between G7 central banks.

السعيدي: استثمارات الطاقة المتجددة وصلت إلى تريليوني دولار

يراهن الخبراء والمستثمرون مجدداً على أن مجلس الاحتياطي الفيدرالي (البنك المركزي الأميركي) سيقوم بسلسلة من خفض أسعار الفائدة في 2024 بناء على الاعتقاد بأن التضخم في الولايات المتحدة يتباطأ بالقدر الكافي.

وقال مؤسس ورئيس شركة “ناصر السعيدي وشركاه”، ناصر السعيدي، إن المشكلة الجوهرية في الاقتصاد الأميركي تكمن في مستويات عجز الموزانة، والتي تقدر بنحو 7% هذا العام.

“هذه المستويات من العجز ستدفع الحكومة الأميركية إلى استدانة نحو 4 تريليونات دولار خلال العام الحالي”، وفقا للسعيدي.

وشكك في مقابلة مع “العربية Business”، بقدرة الأسواق على استيعاب هذا الكم المهول من السندات التي ستضخها واشنطن، مشيرا إلى أن السبب الرئيسي للتضخم هو سياسة الإنفاق التي تنتهجها الحكومة الأميركية.
